

# verisvisuals

Brand Identity & Typographic Standards

---

## Primary Headline Font: Playfair Display

**"Crafting visual legacies through cinematic precision."**

*Use this for logo wordmarks, key titles, and headers. Its high contrast exudes luxury and editorial sophistication.*

## Body & Functional Font: Montserrat

"Modern, clean, and highly legible across all digital platforms. This font provides the essential balance to the decorative nature of the headline font."

*Use this for body copy, pricing tables, social media captions, and professional correspondence.*

## Strategic Implementation

- **Consistency:** Never exceed two font families.
- **Letter Spacing:** Use increased tracking (100-200) for headers to signal status.
- **Hierarchy:** Bold weights for headlines; regular weights for detailed content.
